

**Summer 2018 Activities**

Teton Machine Company completes a major expansion project in Payette, Idaho, with a new, larger building. Idaho Commerce, Snake River EDA, City of Payette, Payette Chamber and many others celebrated with Teton at their ribbon cutting in June. Teton is a precision machining contract manufacturer producing complex parts and sub-assemblies from a wide variety of materials for a broad base of industries including aerospace,

medical, oil and gas, semi-conductor, scientific test and instrument and many others. The company originated in Teton, Idaho in 1952, and later moved to Payette, Idaho. The company is employee owned.

Pictured right (in the famous ‘Jenny’s selfie’ photo) is Idaho Commerce Eric Forsch, Teton President and General Manager Andy Oyervides, Snake River EDA Executive Director Kit Kamo, Idaho Representative Ryan Kerby, and forefront is Idaho Commerce Jenny Hemly.

The City of Fruitland celebrates the opening of their 2<sup>nd</sup> Splash Pad! This one is located downtown in the Fruitland Community Park. The city invested \$45,000 from their recreation funds to provide this outstanding amenity for their citizens. The Community Park is also open to dogs and numerous pet owners have enjoyed splash time with their fur babies. The water is programmed to run for several minutes and then stop. If the children are still playing, they can push the big button and continue the fun.
